

Journal Committee

The Journal Committee is, as one may deduce from the name, a voice of the organisation. Our group acts not only as a body of highly motivated journalists but also as the official mouth of the student association. We are a diverse group of around 20 editors from various faculties. We represent different nations and fields of studies but we all strive for the same goals – improving our writing style and issuing as interesting and comprehensive newspaper as we can. Together and throughout a year, we learn about all different styles of writing on weekly committee sessions and workshops.

Our magazine and blog, as the voice of United Nations Student Association, are focused on the actual global affairs. The articles cover worldwide and local issues. In recent year, we have been commenting on topics such as global politics and cultural exchange, but also fashion, football or secret places in Maastricht. Check out our blog and grab an issue of our printed edition to get an impression of our Committee.
